

Update Location on True SMART 4G M1

1. On Home screen, select [Settings]

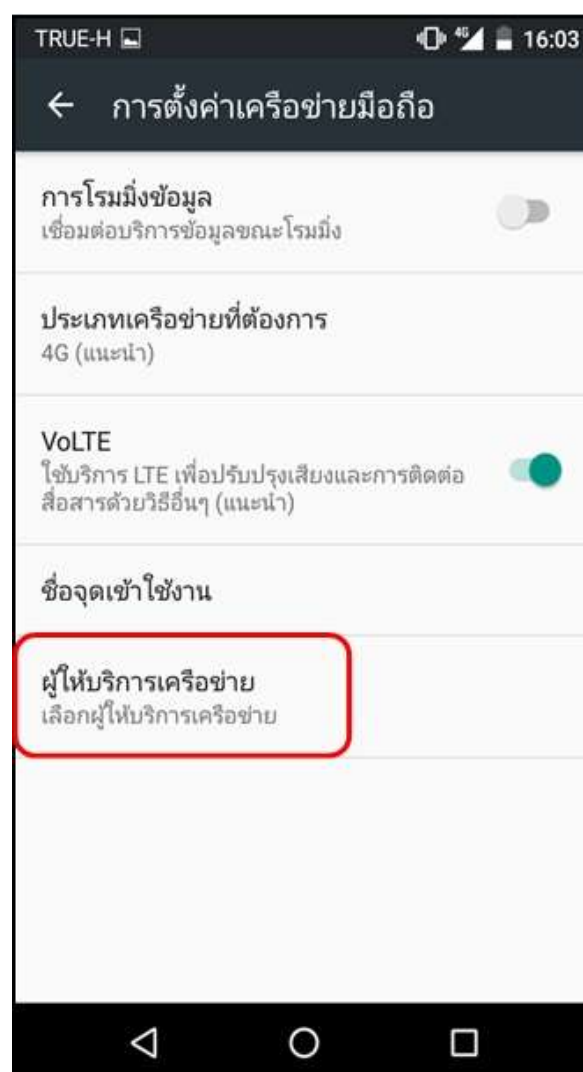

2. Select [More]

3. And then [Cellular networks]

4. Choose [Network operators]

5. And [Select network], device is searching for network
6. Select other network that is not true e.g. AIS, Dtac, you'll find Error, unable to use network

7. Return to choose TRUE-H again and test using device
