

How to set up Wi-Fi for 4G CAR WiFi

1. At Home screen, choose Huawei HiLink App
2. Select Gear sign (Settings) at top right corner

3. At Settings page, choose My Wi-Fi

4. My Wi-Fi page

- Wi-Fi name = displayed Wi-Fi name
- Password = password

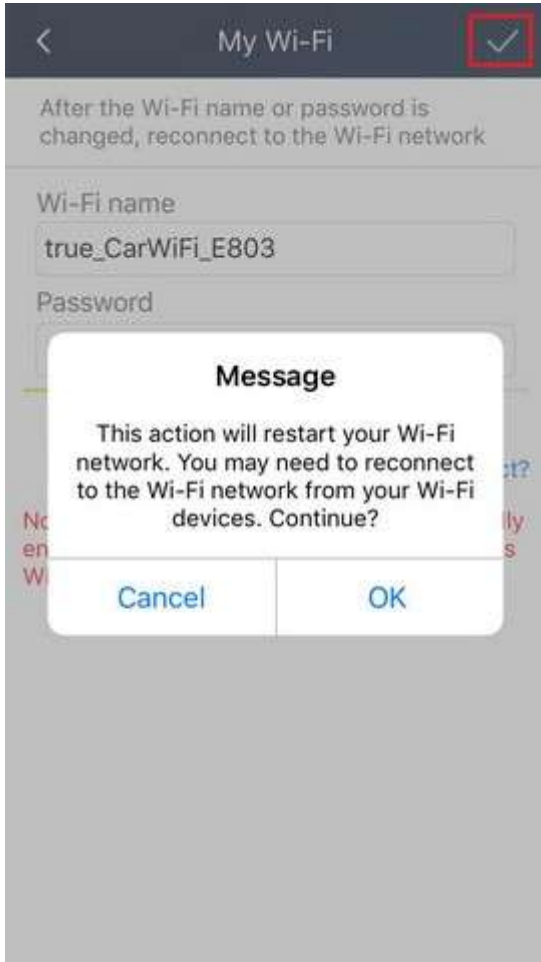

5. To display [Password], tap on Eye sign

6. Once completed, tap on a check mark
if there no correction in this page, no check mark displayed

- 7. Restart Wi-Fi network warning message shows, select OK
- 8. Back to main page, reconnect to Wi-Fi again

9. Device disconnected

10. Searching for true_Car WiFi
_Exxx and reconnect again

Ex : use iPhone to connect Wi-Fi

11. Enter the password

12. Tap on [Join]

13. Once connected, a check mark shows before true_CarWiFi_E8xx and on the top left, there'll be Wi-Fi signal (fan) and Internet can be used now
