

How to share information on TrueMove H Shared WiFi 3 SD card

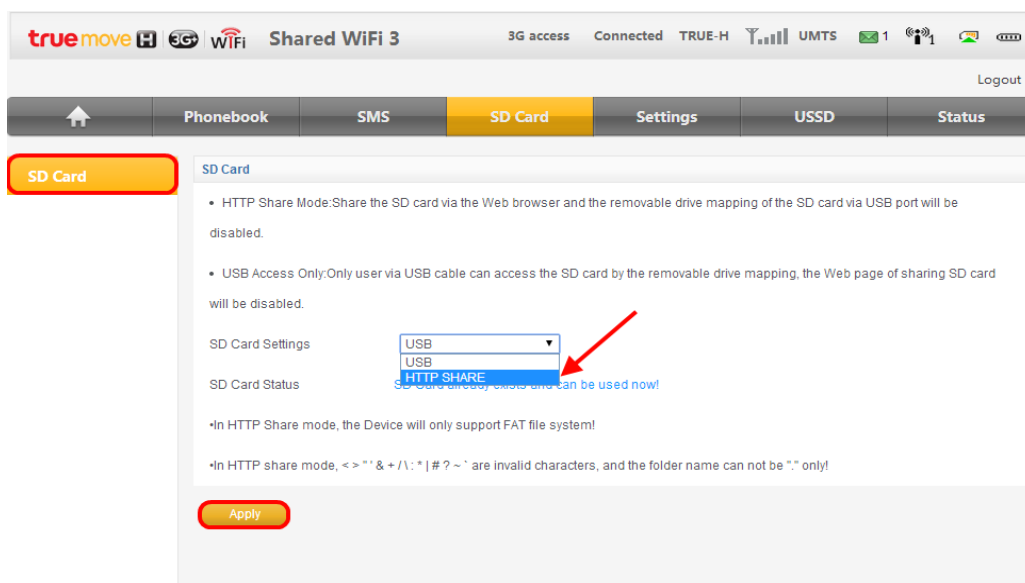

1. Open Browser then enter IP 192.168.0.1

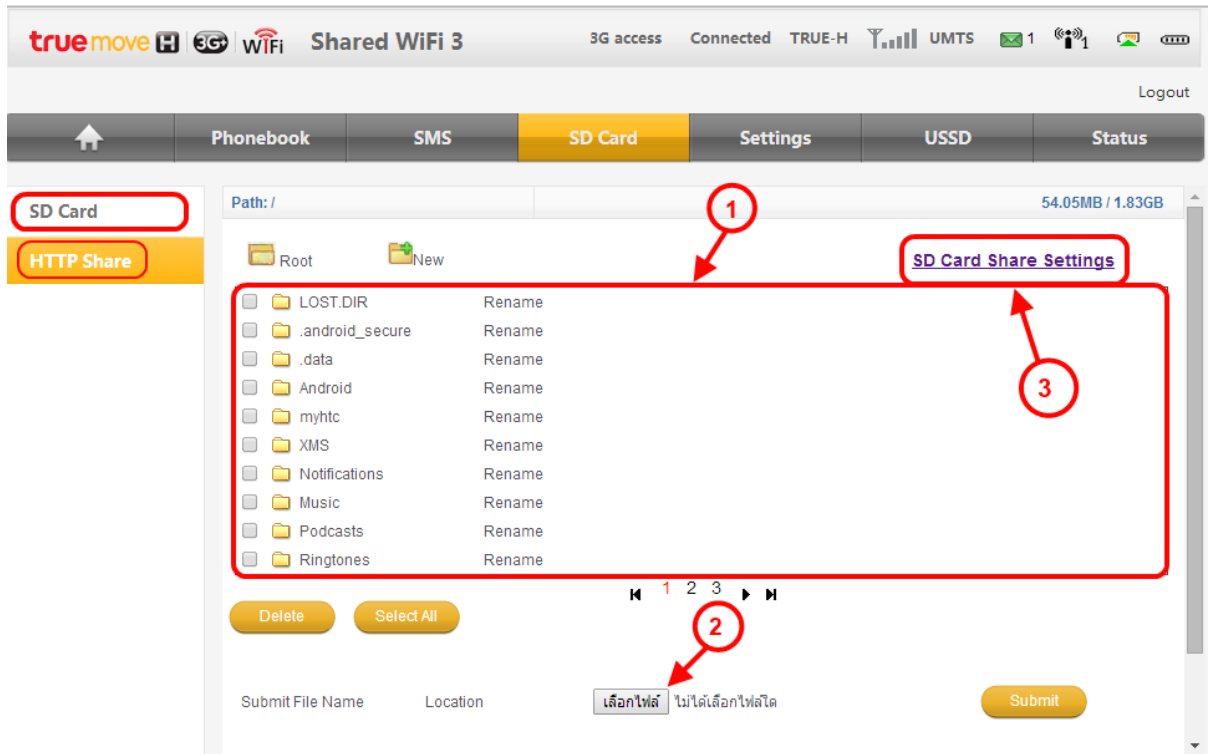

2. Enter password **admin** then click Login

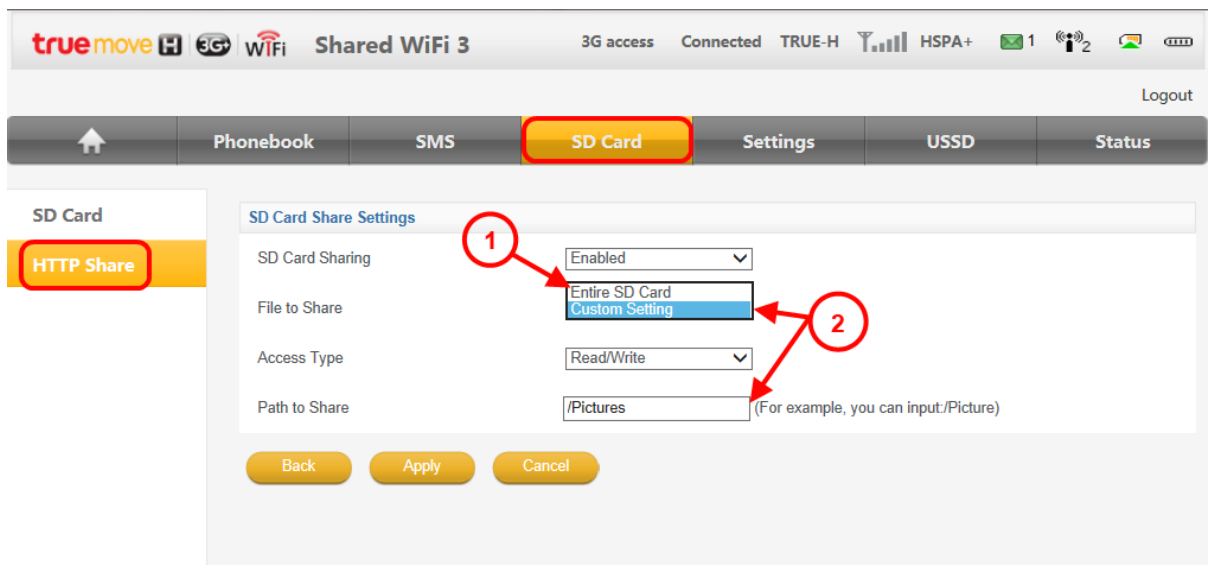

3. Select tab SD card > SD card Settings > HTTP SHARED

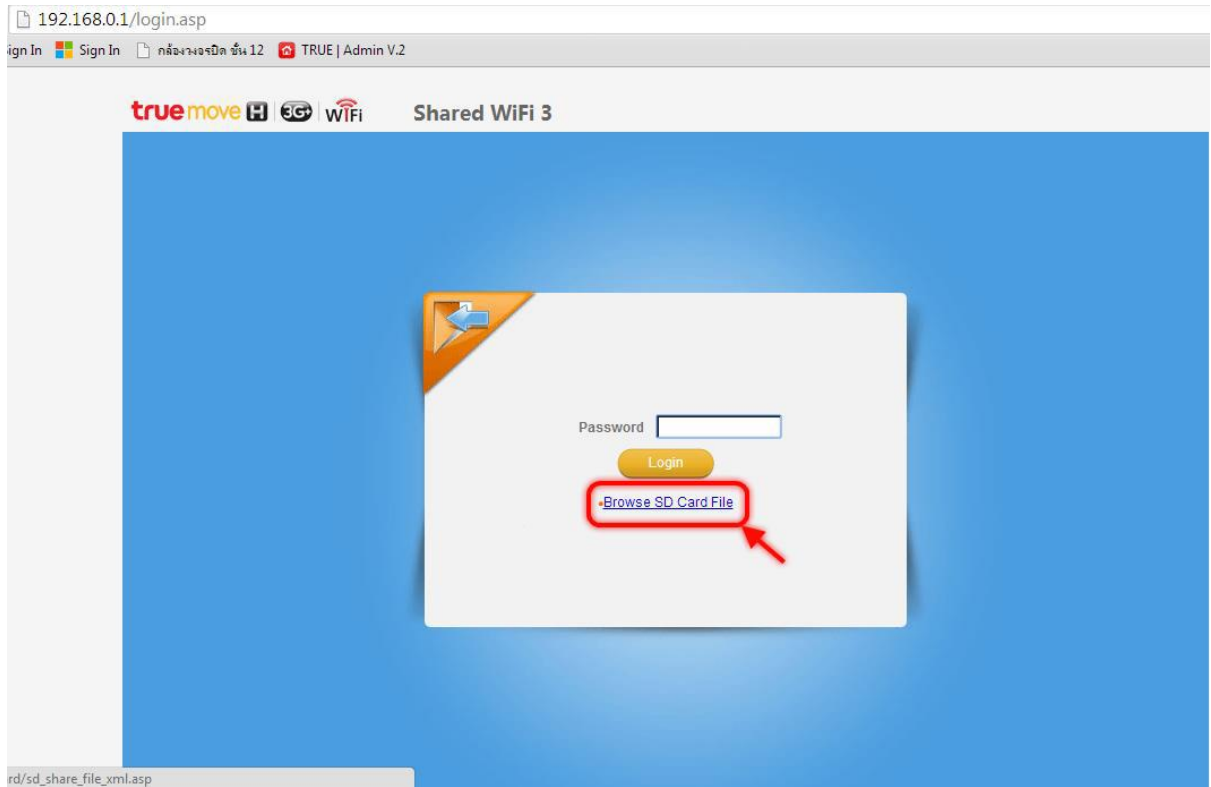

4. Select Tab HTTP Share, the information will be shown
 - 4.1 File in SD Card
 - 4.2 File can be uploaded from Computer to SD Card
 - 4.3 SD card Share settings can be done

4.3.1 Entire SD Card can be shared (per no.1) and specific folders can be shared (per no.2) by place a check mark / followed by folder

5. If other device connected to Shared WiFi 3, the shared information can be accessed as shown

6. If other device connects to Shared WiFi 3 and log in, the message "Another user is already login, please try again later." is popped up at the previous login user and the Admin page will disappear.
