

Set up Internet APN and MMS APN on Motorola moto g6 PLUS

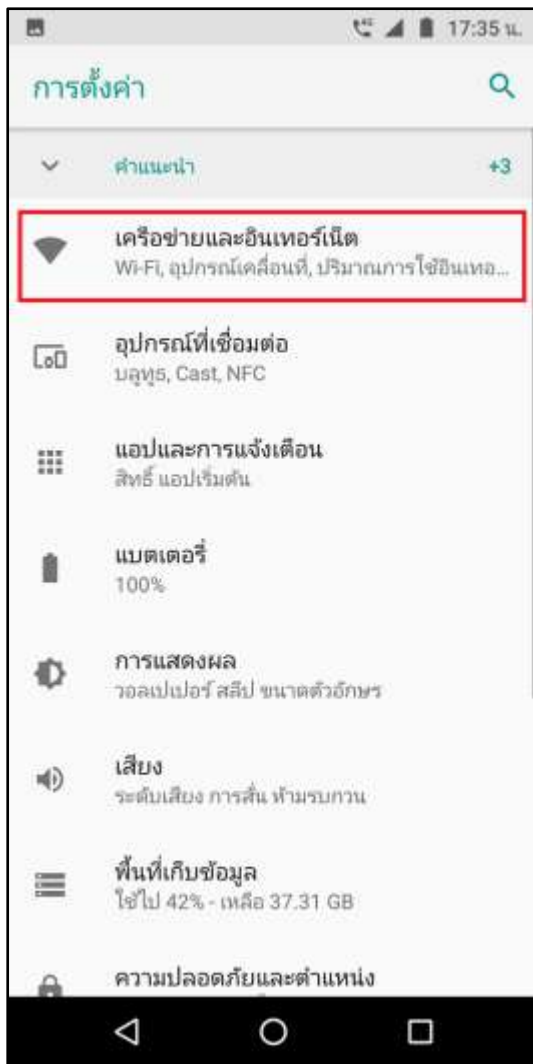

This setting can apply to Motorola phone with Android 8.0 or latest

1. On main screen, tap (All App)

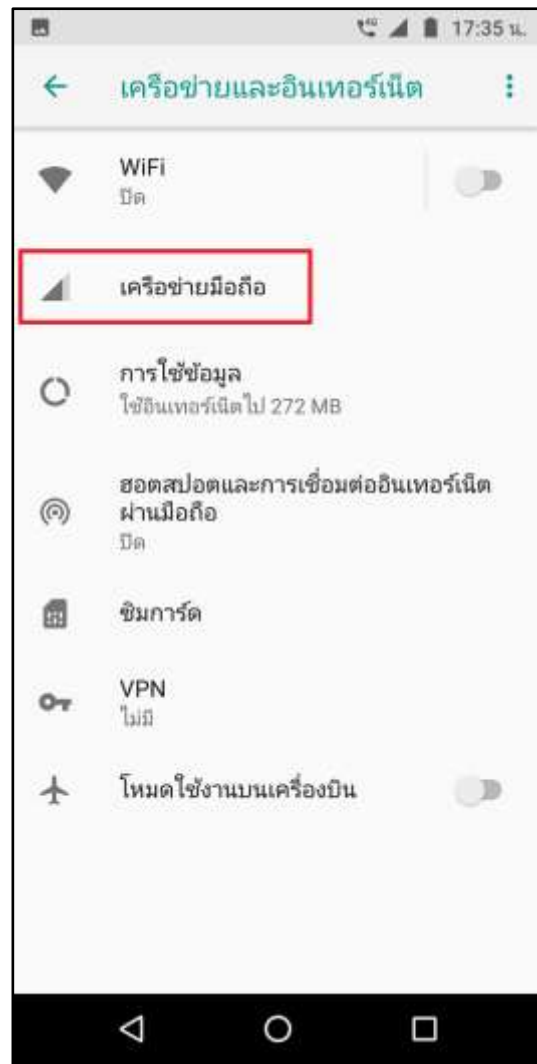

2. Select (Settings)

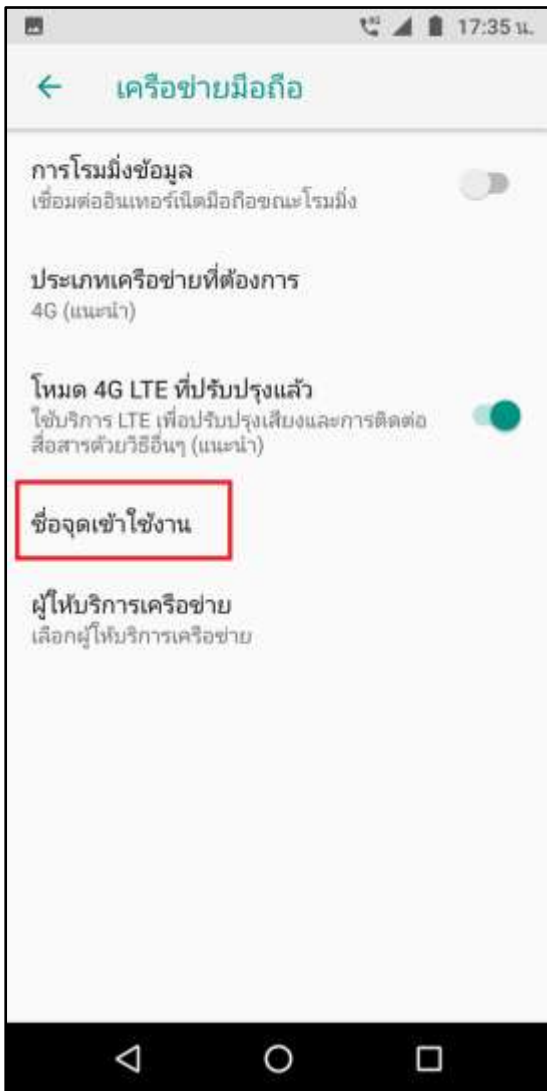

3. And then (Network & Internet)

4. Select (Mobile network)

5. Then choose (Access Point Names)

6. If do not find APN or if find but can't use, you can set up APN automatically, tap Menu (3 dots sign)

7. Then choose **(Reset to default)**

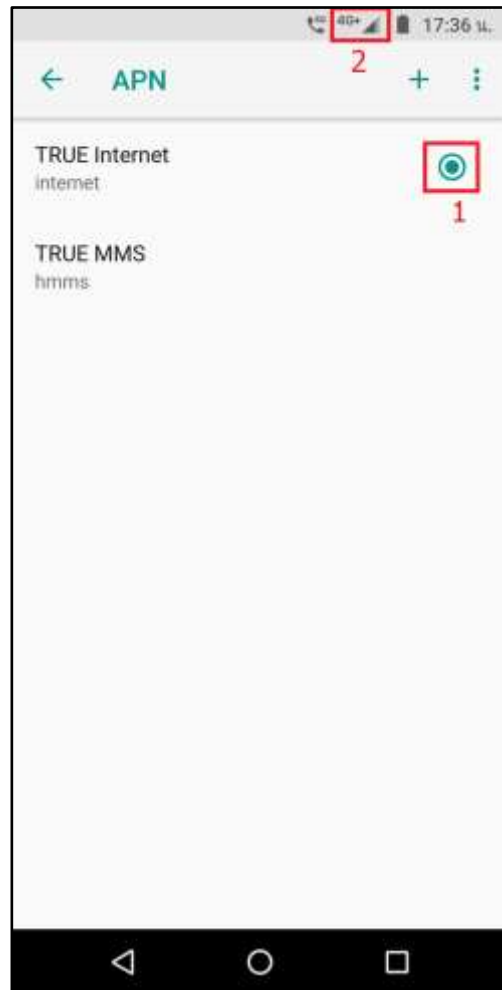

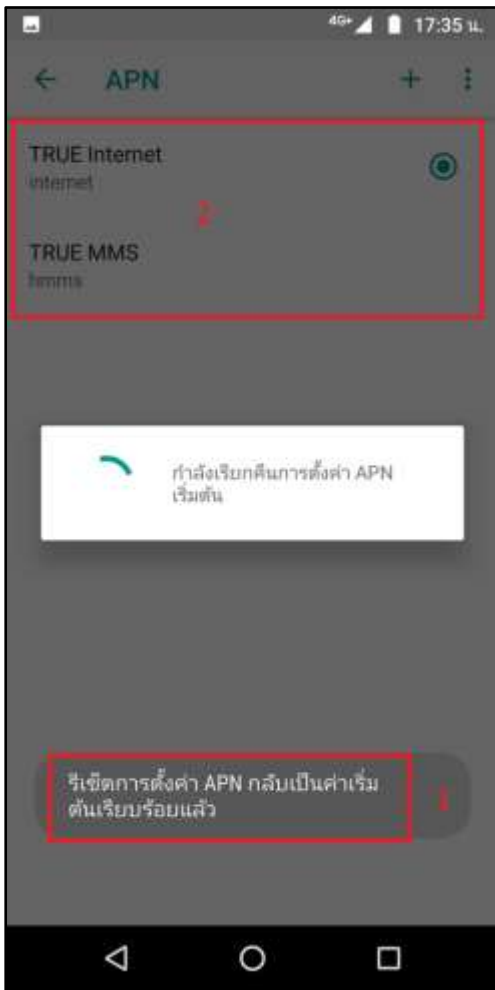

8. System will restore default APN settings

9. Reset default APN settings completed, there'll be 2 APNs: TRUE Internet / TRUE MMS

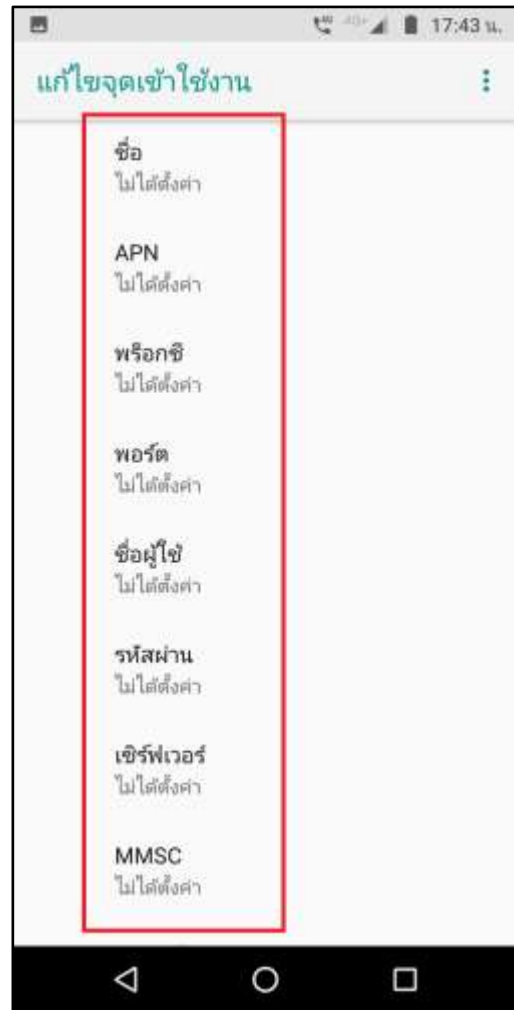

10. 4G+ sign will appear that means already connect mobile data (if being in 3G area, it'll show H / 2G will show E or G)

11. Setup manually, tap (+) sign at top right corner

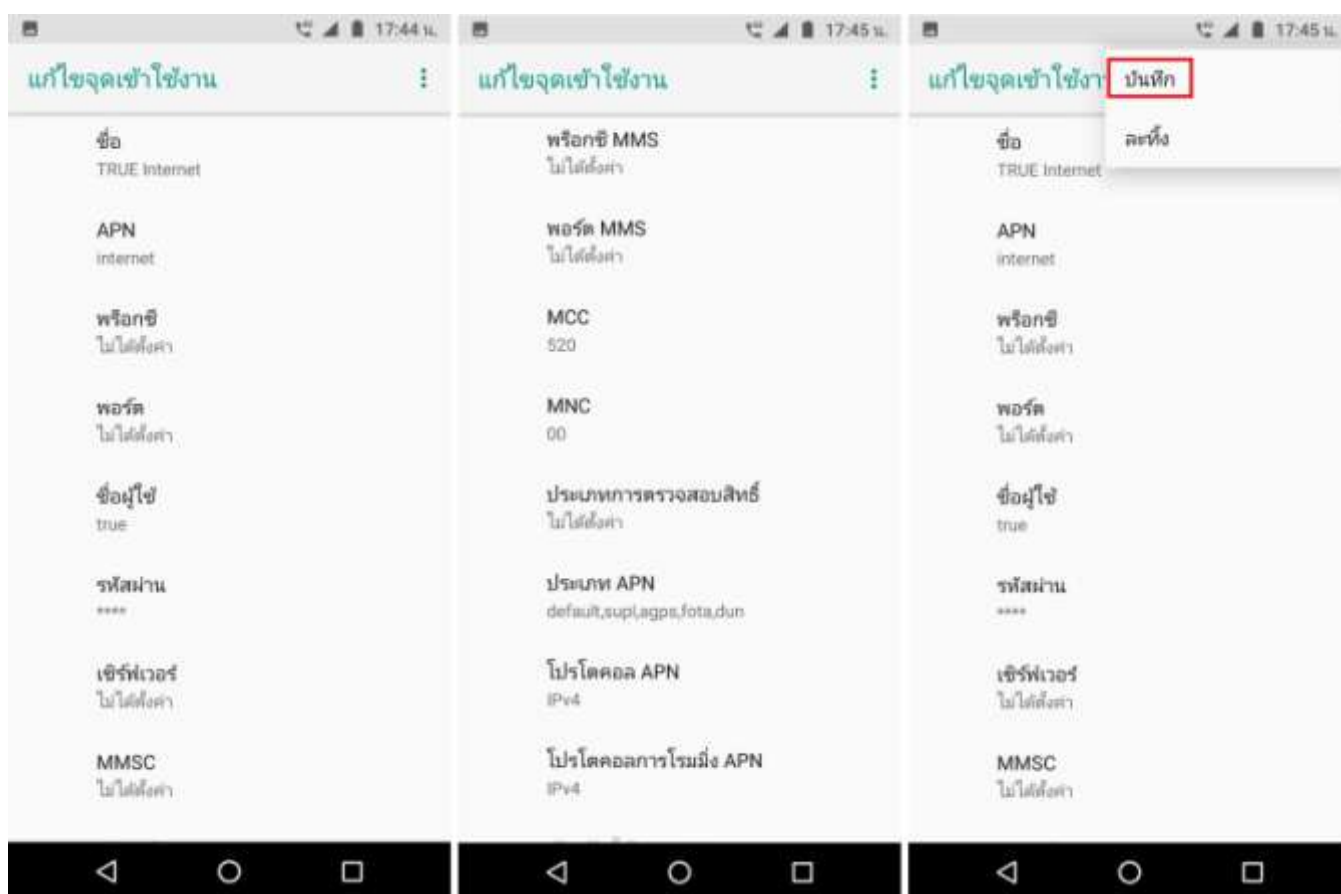

12. Edit access point page

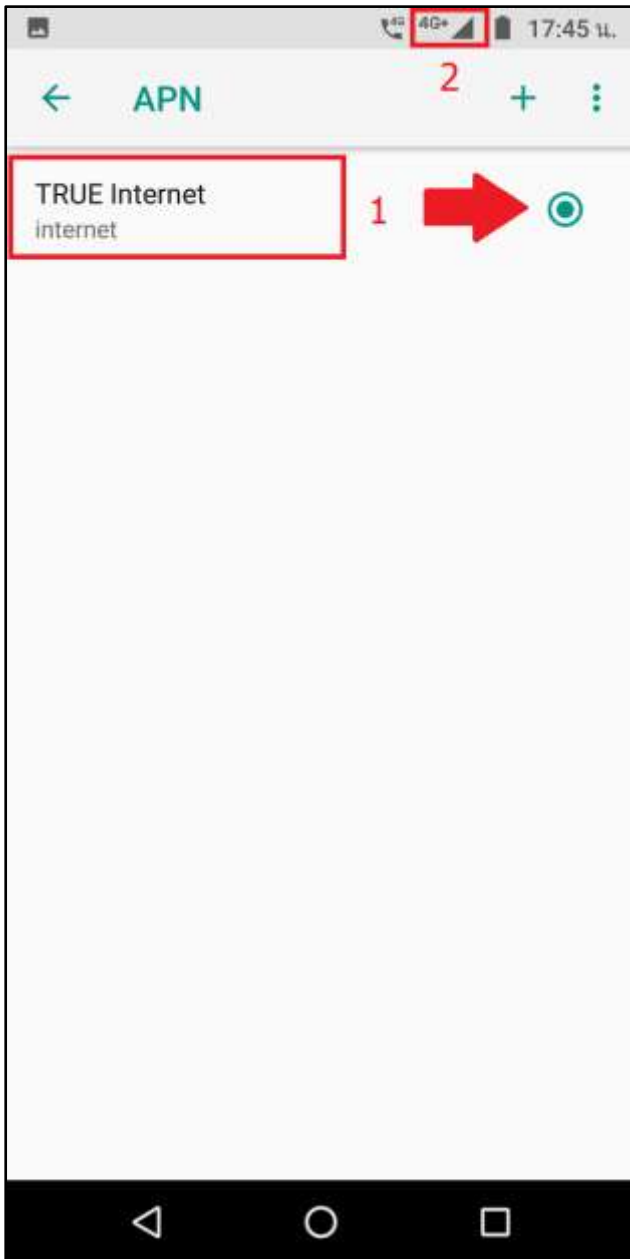

13. TRUE-H Internet

- Name = TRUE Internet
- APN = internet
- Username = true
- Password = true
- Authentication type = Not set or PAP
- APN type = default, supl, agps, fota, dun
- APN protocol = IPv4 (or IPv4/ IPv6)
- Tap **(Save)**

14. Back to APN, TRUE Internet will appear, tap a circle sign behind to select it then at top right corner, 4G+ sign will appear

15. TRUE-H MMS

- Name = TRUE-H MMS
- APN = hmms
- Username = true
- Password = true
- MMSC = <http://mms.trueh.com:8002/>
- Multimedia message proxy = 10.4.7.39
- Multimedia message port = 8080
- Authentication type = Not set
- APN type = mms
- APN protocol = IPv4
- Tap **(Save)**
