

## Use Wi-Fi on Motorola moto g6 PLUS

This setting can apply to Motorola phone with Android 8.0 or latest

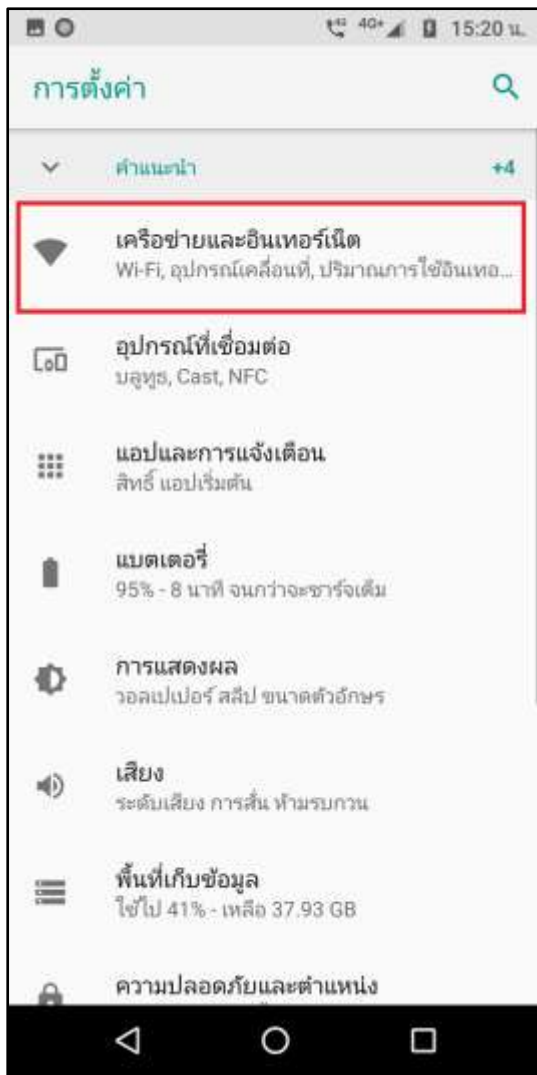

1. On main screen, tap (All App)

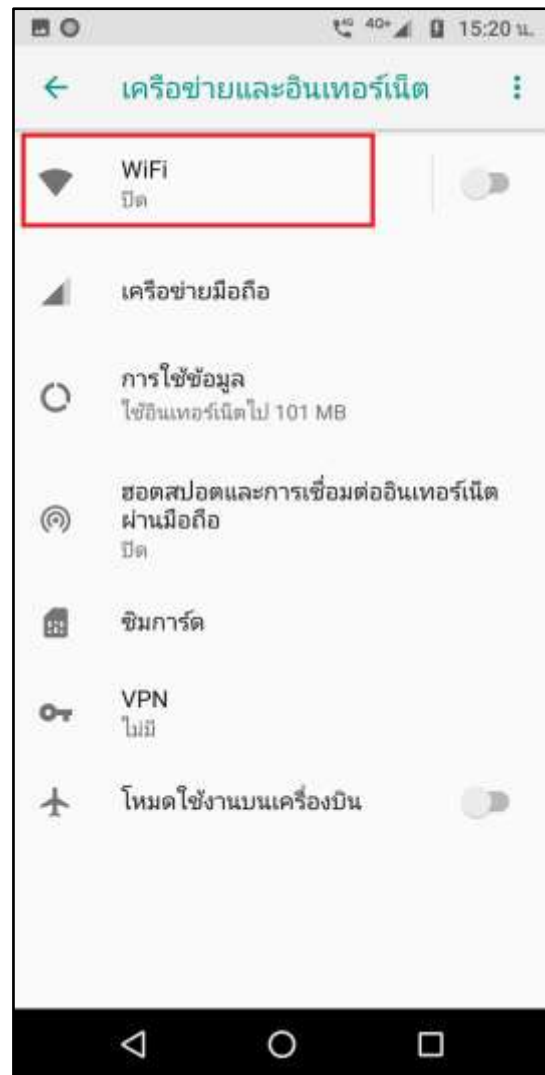

2. Select (Settings)

3. And then (Network&internet)

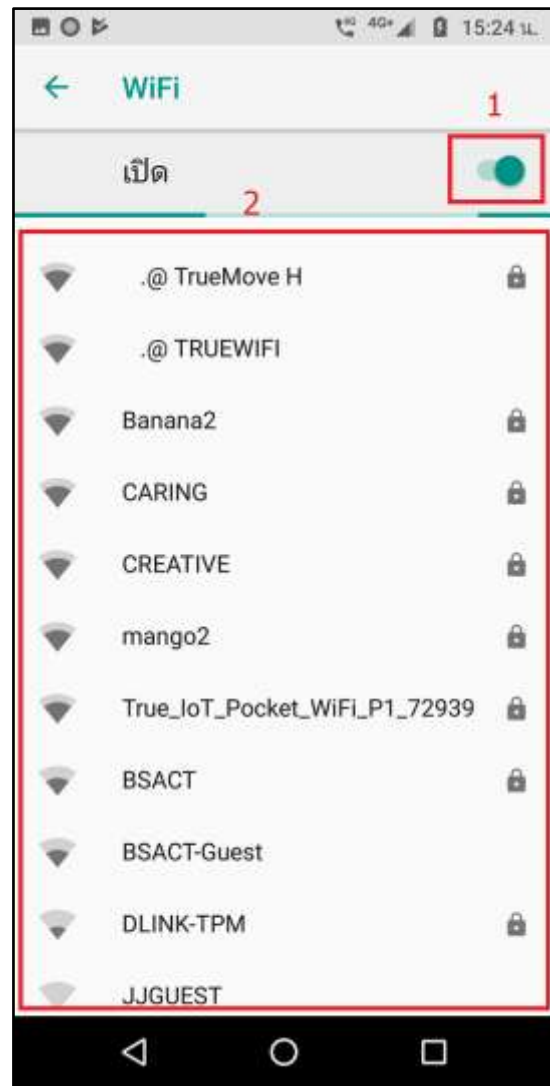

4. Select WiFi

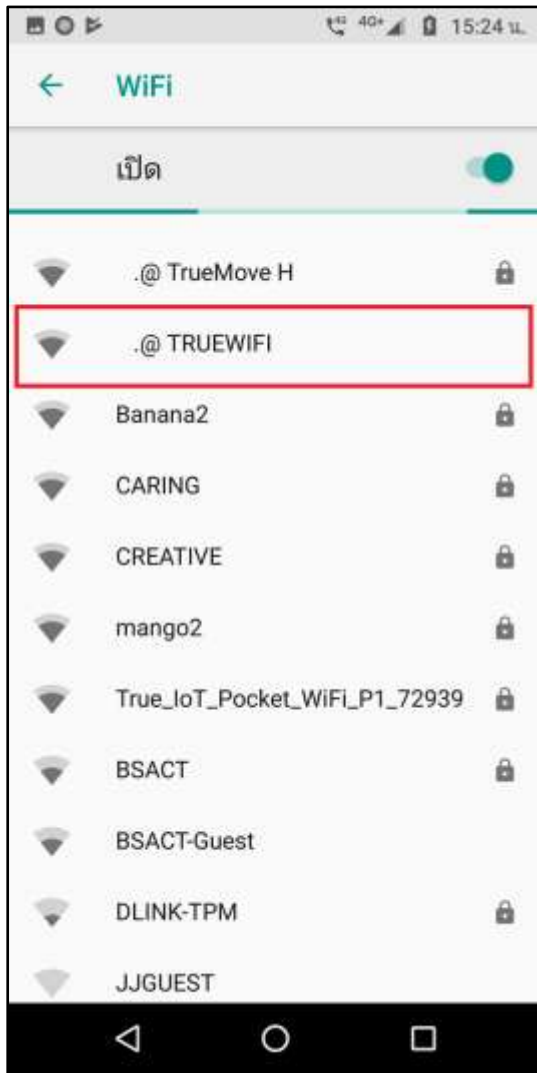

5. Tap a button to turn on Wi-Fi

6. Once turned on, device will search for nearby Wi-Fi network and display on screen

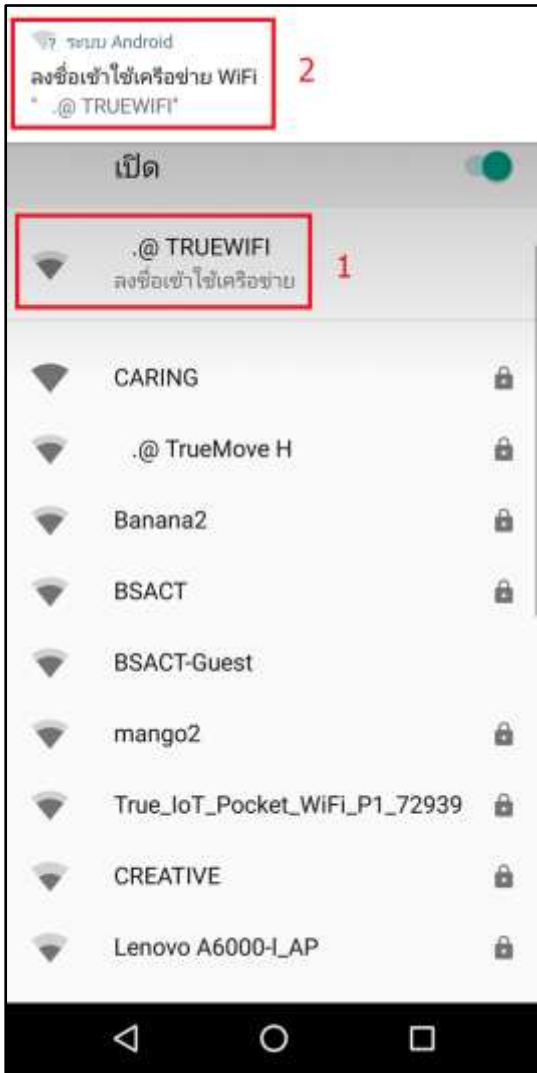

7. Select preferred Wi-Fi ex. choose  
.@TRUEWIFI

8. Wait a moment

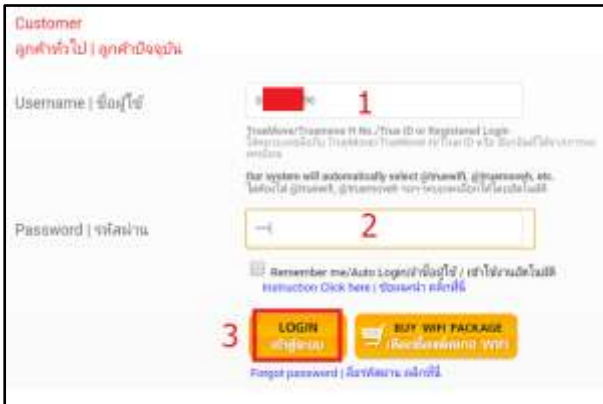

9. Once connected .@ TRUEWIFI will appear and a popup message to log in, tap it to proceed

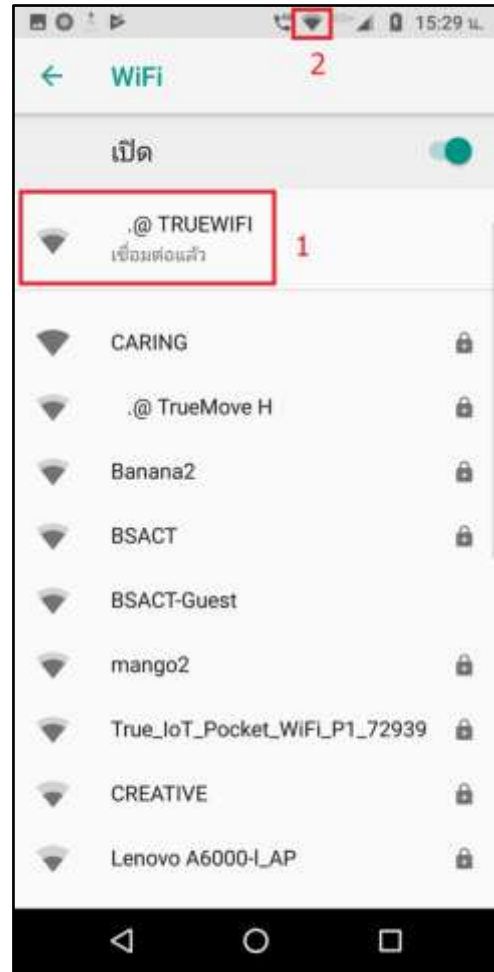

10. A web Browser will automatically appear including a (SIGN IN TO WI-FI NETWORK) page of truemoveh

11. Enter Username – Password and then tap **(LOGIN)**

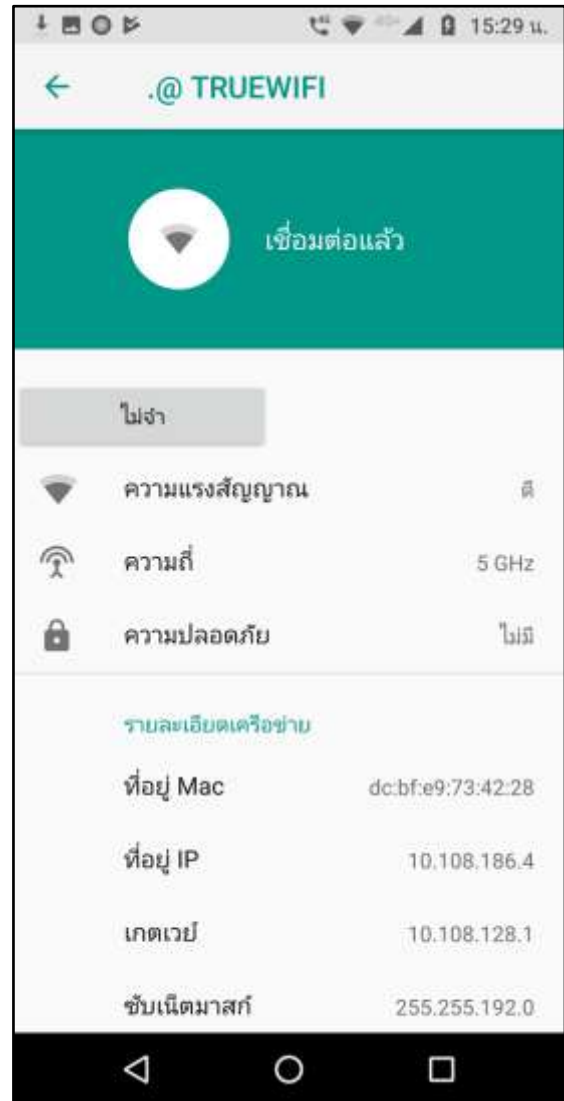

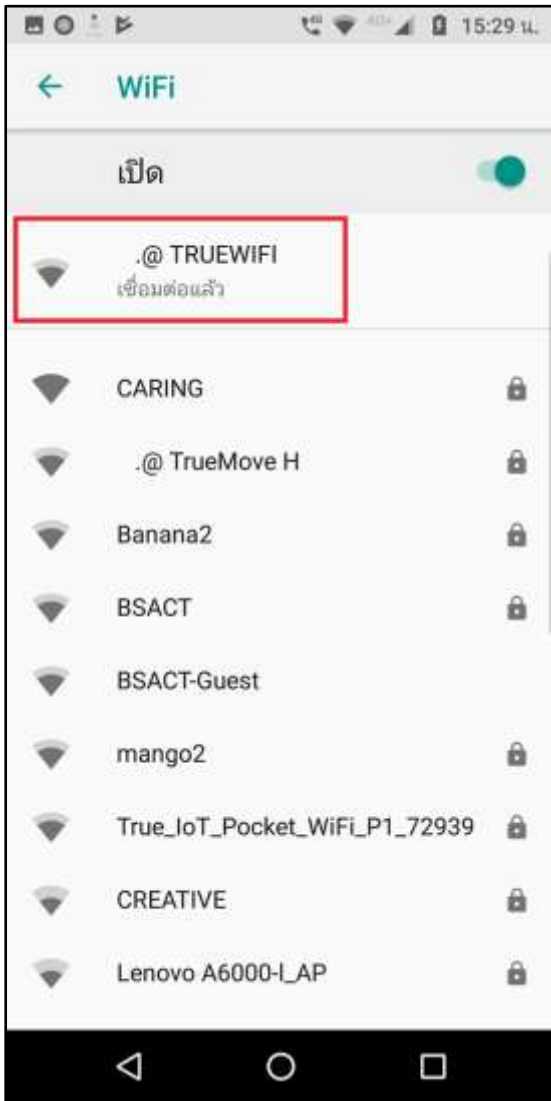

12. After completely log in, it'll return to WIFI page and .@ TRUEWIFI shows Connected status > internet is ready to use

13. To check WiFi connection status, tap WiFi name that you want to check (.@TRUEWIFI)

14. That Wi-Fi information will appear e.g. IP address, strength, band etc.

15. Turn on Wi-Fi via Control Center: swipe screen down until finding (Control Center) > tap turn on- turn off W-Fi at **Wi-Fi** sign (fan)

Screen Example: Wi-Fi is turned **on**

Screen Example: Wi-Fi is turned **off**
