

How to use Live TV Function of TrueID TV

1. Change TV channel

1.1. Use CH Up/ Down to go to preferred channel e.g. from 676 to 677

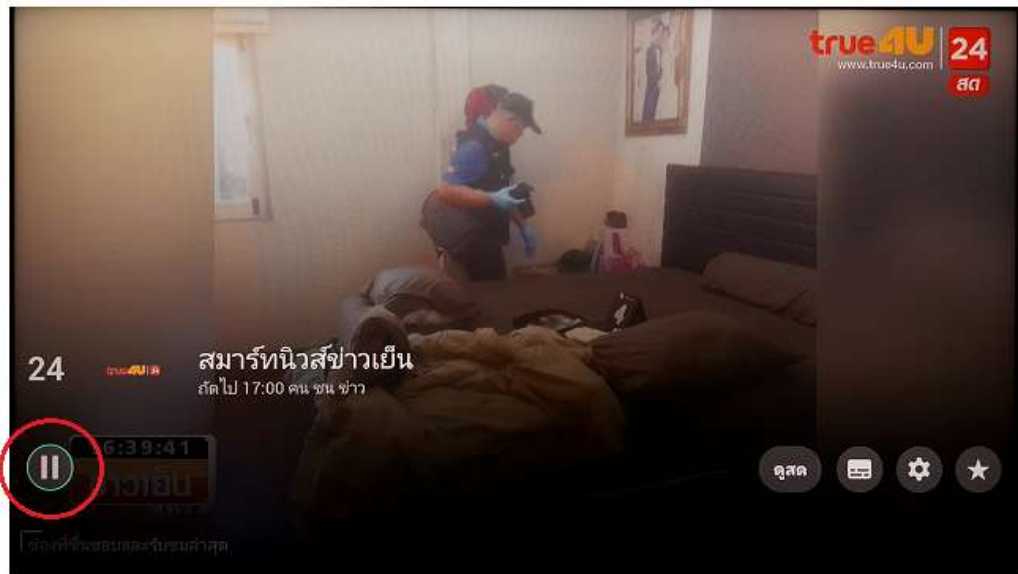

1.2. Wait for a while channel will be changed

2. Time shift

2.1. While watching any channel and press **OK button**, highlight will be at **pause sign**, if **press OK again**, it'll **pause watching that channel temporarily** and time shift function is enabled. To continue watching, make highlight at pause then press **OK again** (this watching is time shift not live TV)

2.2. To watch live TV, press Right button to “Live” then press OK again, it’ll return to Live TV per that channel program. Time shift can be done only some channels

3. Change Audio

while watching any channel, press OK and then Right button to 1st menu on the right, this can change audio language between Thai and Original (depending on the broadcast of each channel whether it has 2 languages)

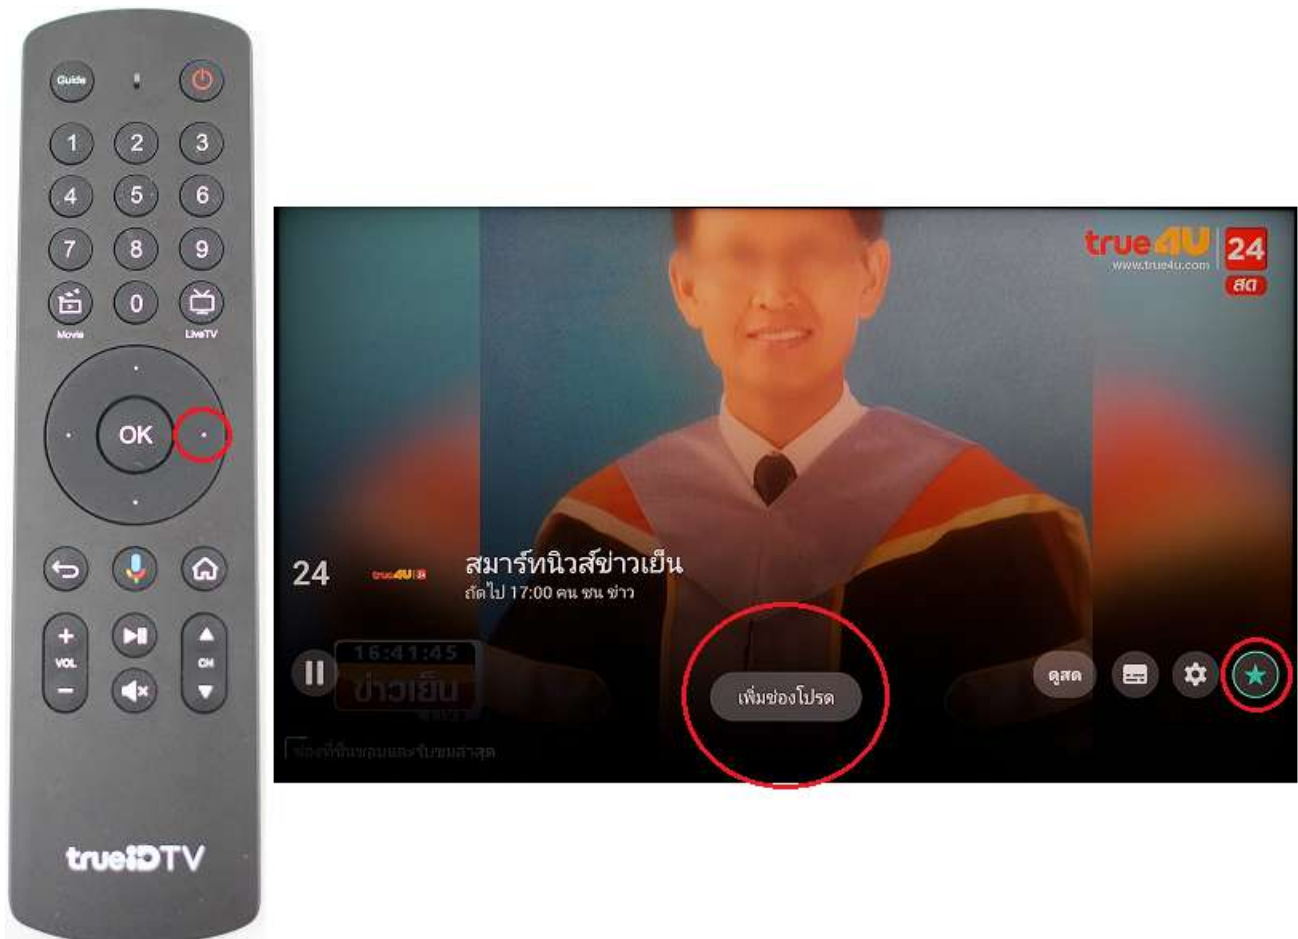

4. Quality

while watching any channel, press OK and then Right button to 2nd menu on the right (gear sign) then press OK, you can adjust quality

5. Add/ remove Favorite

5.1. while watching any channel, press OK and then Right button to 3rd menu (star sign) then press OK, “Channel added to favorite” will appear

5.2. While highlight is at Star sign, press OK again, this will be “Channel removed from favorite”
