

How to set up Wi-Fi on Shared Wi-Fi 3

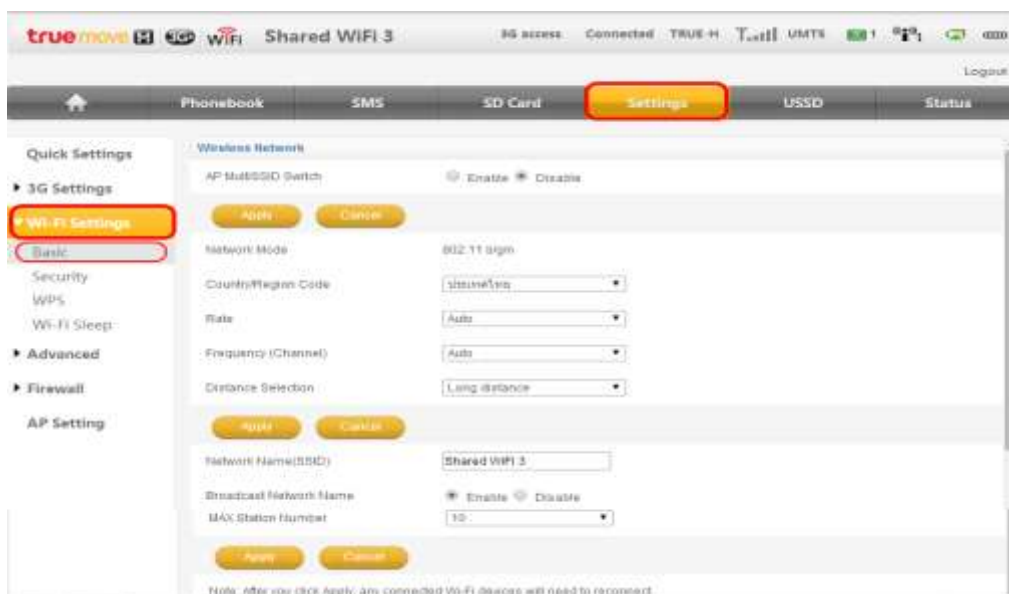

1. Open a Browser then enter IP 192.168.0.1

2. Enter password: **admin** then click Login

3. Select Settings > Wi-Fi Settings > Basic

4. To choose Security type, go Settings > Wi-Fi Settings > Security > Security Mode
 - 4.1 At Security Mode: choose No Encryption or WPA-PSK/WPA2-PSK per no.1
 - 4.2 Enter the Password and press Apply

5. To enable preferred Wi-Fi, go to Settings > Wi-Fi Settings > Wi-Fi Sleep > Sleep Time
