

## การ Update Location สำหรับ True SMART 4G MAX 5.5

1. On Home screen, select [Settings]

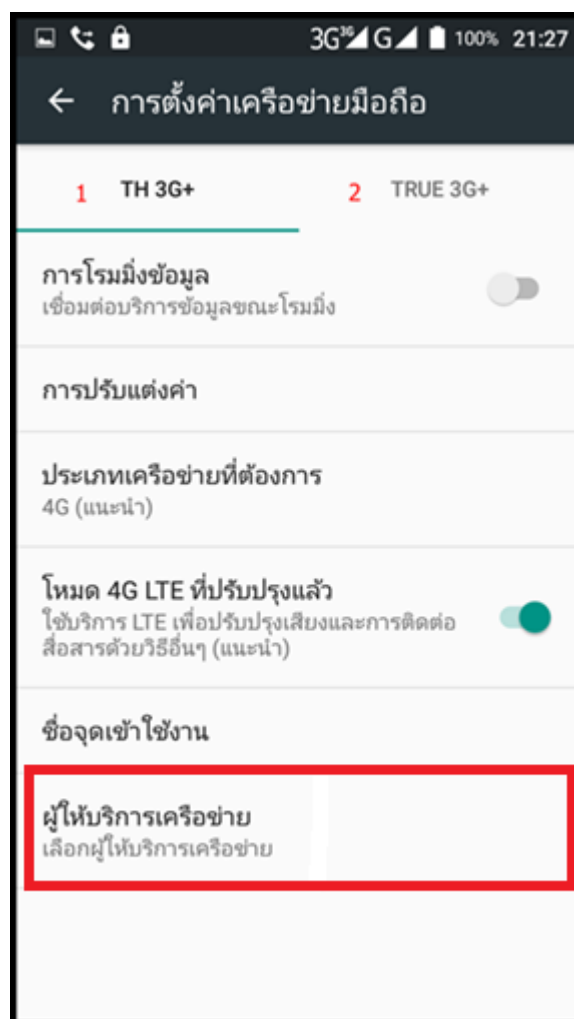

2. Select [More]

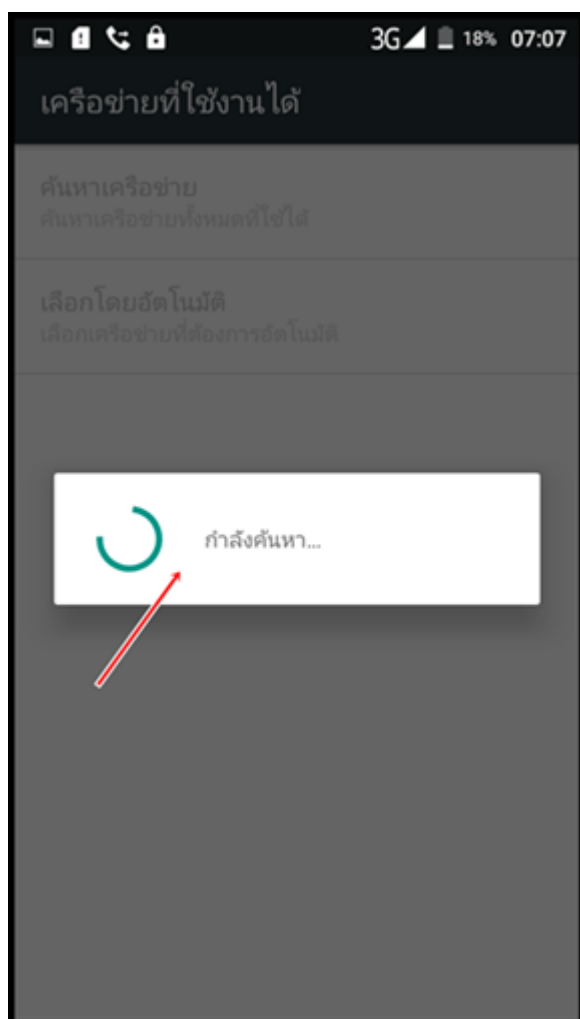

3. And then [Cellular networks]

4. Choose SIM card to set up and then choose [Network operators]

5. [Searching] wait a moment

6. And then [Select network], device will search for nearby network

7. Select other network which is not True  
e.g. AIS, dtac, you may face Error  
can't connect network

8. Back to choose TRUE-H again and  
test using phone
