

## Enable-Disable Data for True SMART 4G GEN-C 5.0

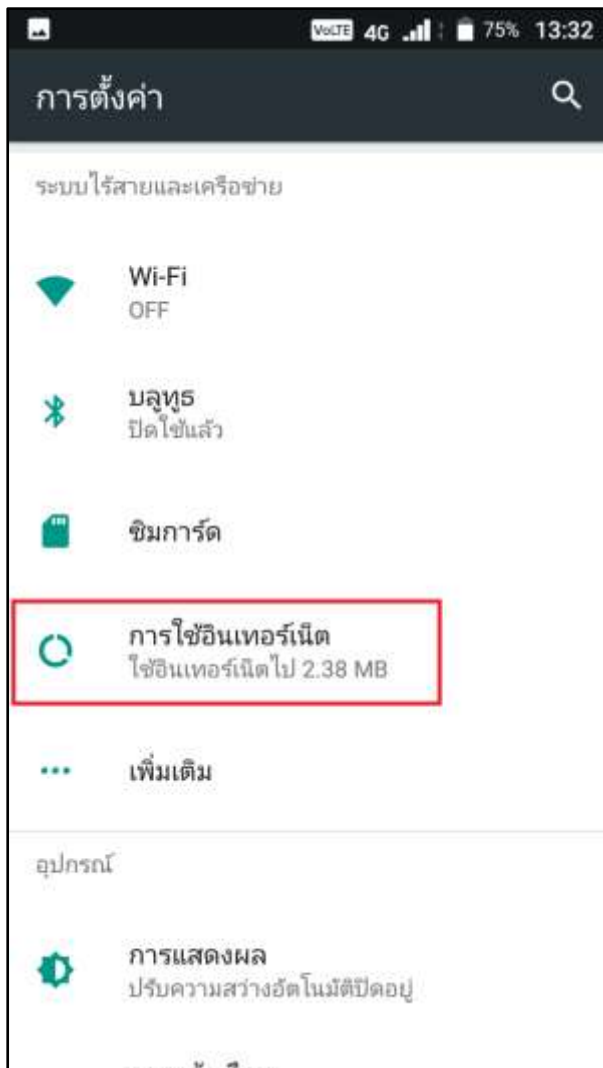

This manual can be applied to True SMART 4G GEN-C Series and True SMART 4G other models with Android 7.0

### 1<sup>st</sup> method via Settings menu

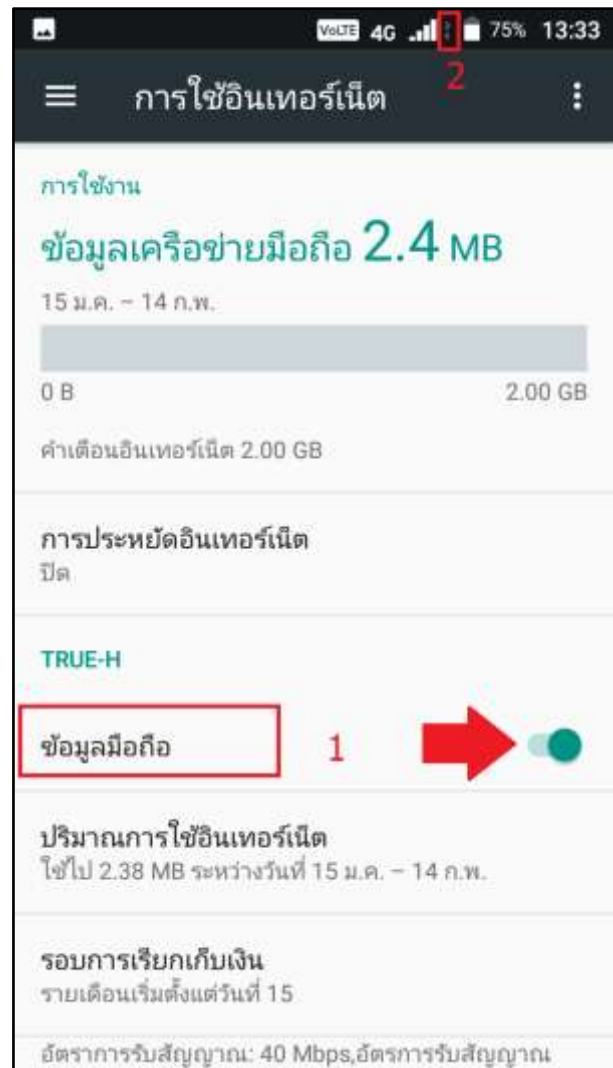

1. On main screen, select **(All Apps)**  
(6-dot sign)
2. Select **(Settings)**

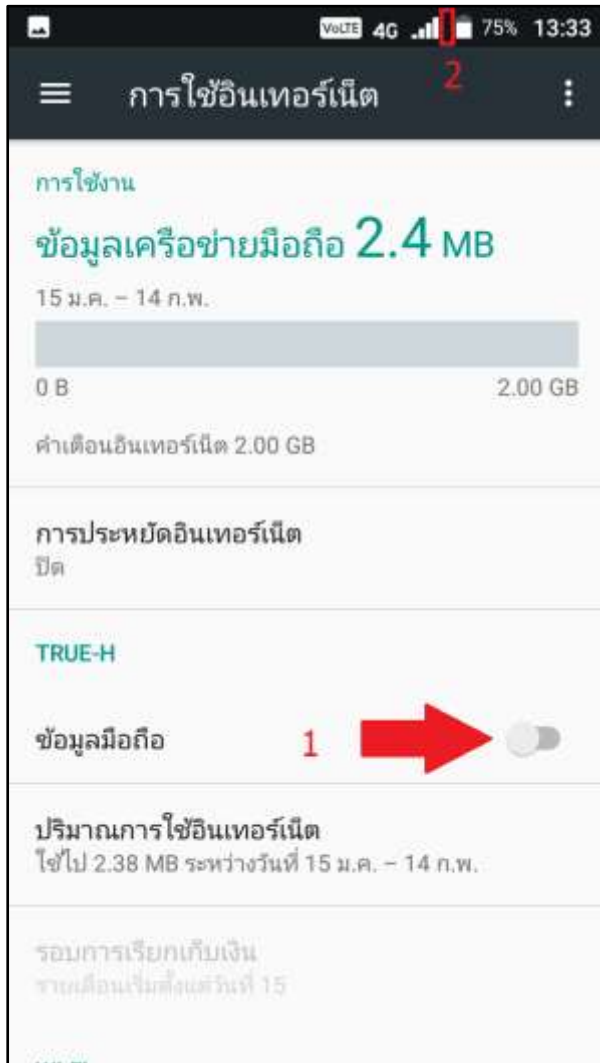

3. And then (Data usage)

4. (Cellular data) is enabled (a button is green) > turn it off

5. After turning Off, a button is grey, connection sign will disappear, can't use the internet but can make call-receive call

2<sup>nd</sup> Method: via Control Center

6. Swipe screen down 2 times until find Control Center

7. Up-down arrows are white that means Data is enabled > tap it

8. At (Cellular Data), tap a button to disable

9. Once disabled, a button is grey = Off
