

How to Update Location for True SMART 4G SPEEDY 4.0

1. At Home screen, go to [Settings] 2. Select [More]

3. Select [Cellular network]

4. And then [Network Operators]

5. Device will search nearby network, wait a moment

6. Select other network which is not True e.g. AIS, Dtac etc.

7. After selection but facing the Error **Cannot connect the network now, try again later**

8. Return to choose TRUE-H and test using again
