

## How to set up 4G Pocket WiFi via Wi-Fi

### 1. Press Power button

### 2. Press and hold the button until 4 LEDs are blinking and then release Power button

- Mobile Network
- Wi-Fi network distribution
- SMS notification
- Battery status

3. Wait a moment until 4 LEDs are green and off

4. Once LED is on, it will be the last one (battery) which means it's starting up and connecting mobile network

5. The 2nd LED (Wi-Fi) will be green but the 1<sup>st</sup> LED (mobile network) is still red which means it's connecting mobile network

6. Wait a moment until 1<sup>st</sup>, 2<sup>nd</sup> and 4<sup>th</sup> LED are green which means it's ready to use
- 3<sup>rd</sup> LED (SMS) will be green when there's incoming SMS but not yet read

7. Prepare device to connect to 4G Pocket WiFi, if use iPhone, go to [Settings]

8. Select [Wi-Fi]

9. Tap Wi-Fi, device will search for nearby Wi-Fi network, select true\_pocketwifi\_4F1B

10. Enter [Password] and then tap [Join]

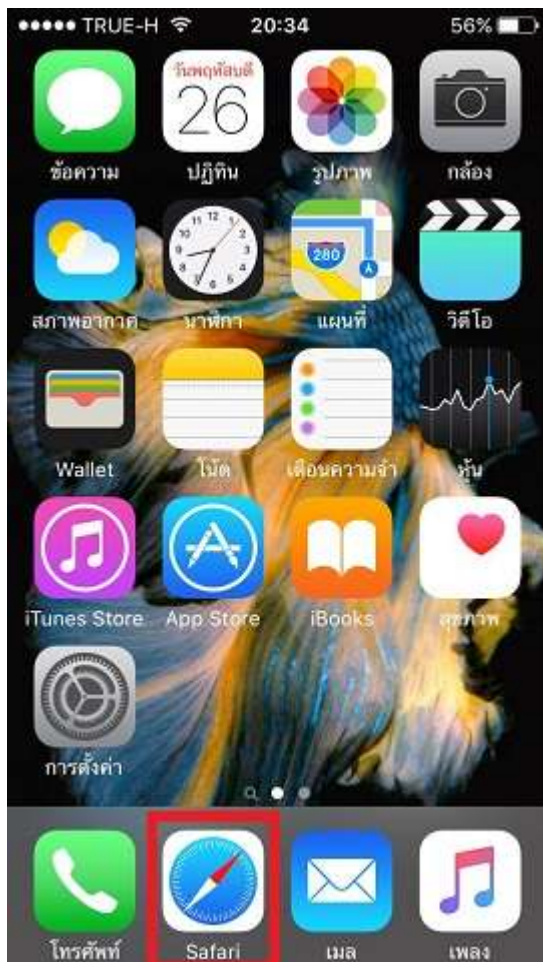

11. Wait a moment

12. Once connected, there'll be a check mark in front of Wi-Fi name

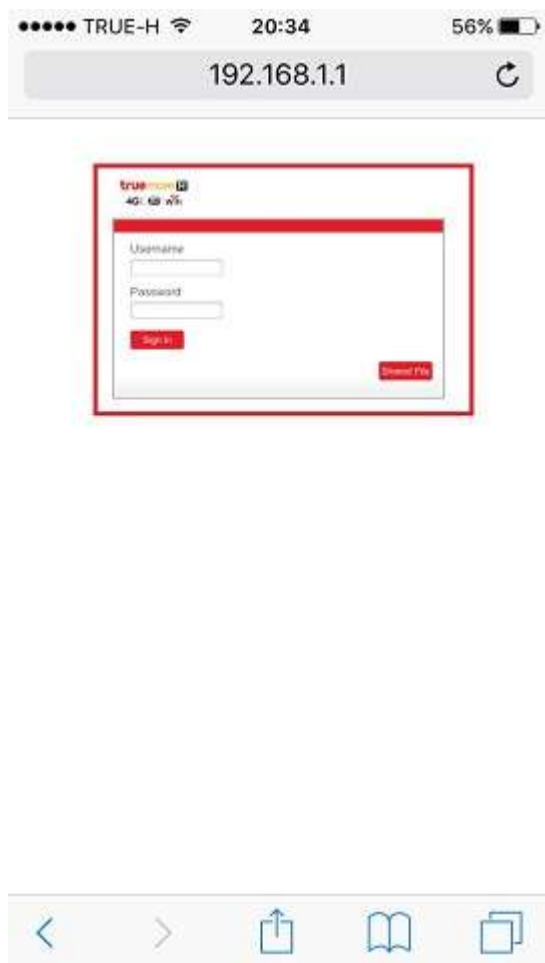

13. At mobile phone back to Main screen, select [Safari] or other browser

14. Type 192.168.1.1 in URL and then press Go (or type <http://192.168.1.1> and then press Enter)

15. 4G Pocket Wi-Fi main page

16. Enter data as follows:

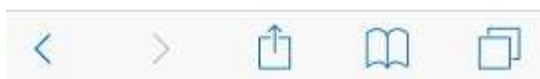

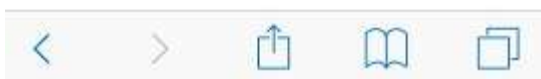

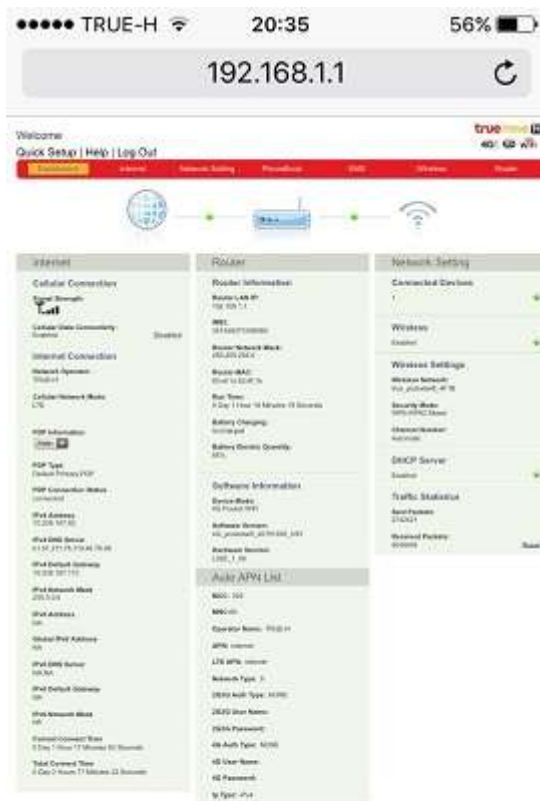

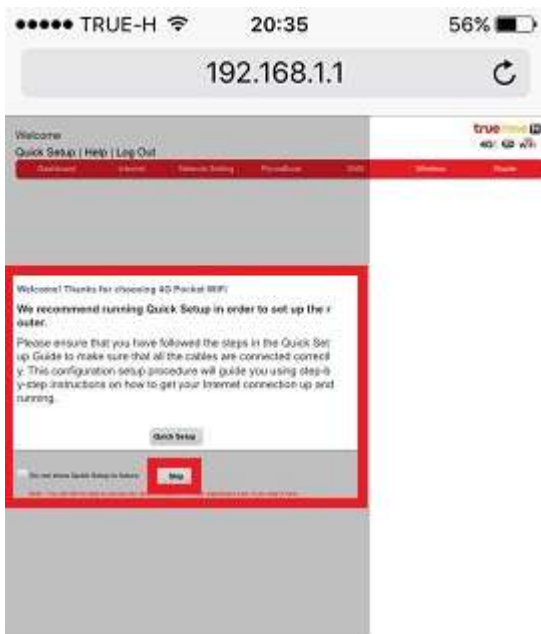

- Username = **admin** (lowercase)
- Password = **password** (lowercase)
- Tap Sign In button

17. Thanks for choosing 4G Pocket Wi-Fi page will display, you can choose between Quick Setup and Skip, select Skip to go the next page because it's already set up by default

18. Configure Main Page will appear

19. To exit from this page,  
select Logout (top left corner)

20. Back to Main Page again
